for Internal Use

Middle Park Conservation District
2017-18 Tree & Seed Order Form
UPDATED 11.24.17

CSFS Inventory:
970-491-8278
<http://csfs.colostate.edu/seedling-tree-nursery/>

Name: _____ Mailing Address: _____ City: _____

State: _____ Zip: _____ Phone #: _____ Email: _____

Nearest Town to Physical Location of Trees: _____ #Acres: _____

DEADLINE TO ORDER TREES: MAY 1ST, 2018 (though trees will begin to sell out in late 2017/early 2018)
TREES DELIVERED TO GRANBY ON WED. MAY 23RD, 2018 AND TO FRISCO ON THURS. MAY 24TH, 2018

CONDITIONS OF SALE

- 1) Nursery stock is to be used for conservation purposes only.
- 2) Seedlings are sold in the quantities listed on this form; lots will not be broken to facilitate the sale of individual seedlings.
- 3) Payment must accompany order; no trees will be reserved until payment is received.
- 4) Trees are living organisms that require proper care; there can be no guarantee of survival.
- 5) All orders are final; No cancellations or refunds.
- 6) In the event that trees orders are unavailable, a refund MAY be offered unless a substitute species can be arranged.

PAYMENT DUE UPON ORDER.

I have condensed the complete CSFS Nursery Order Form to reflect the species that grow at elevations of at least 8,000'. Check the species descriptions on pages 5-7 to choose the best trees, shrubs, and perennials for your specific site and elevation.

If you are looking for a species that is not listed on this order form but is listed in the CSFS Inventory, contact me at middleparkcd@gmail.com or 970-531-0127.

You may order any species in the CSFS inventory, but just realize that species not listed on this order form may not grow so well up here in the mountains.

Perennial Flowers

Please indicate the the NUMBER OF PERENNIALS you'd like for each desired species.

YOU MUST ORDER PERENNIALS IN LOTS OF 10, BUT YOUR CAN ORDER A MIX OF SPECIES THAT ADD UP TO 10.

Indicates species not available in that size for that species.

<u>Large Tubes</u>		Lanceleaf Coreopsis (Item# 510 & 550)	Rocky Mountain Penstemon (Item# 513)	Blanket Flower (Item# 514)	Black Eyed Susan (Item# 520)	Colorado Blue Columbine (Item# 521)	Milkweed (Item# 524)	Stiff Goldenrod (Item# 526)	Aspen Fleabane (Item# 527)	Firecracker Penstemon (Item# 528)	SUBTOTAL
Large tube perennials are sold in lots of 10. It is allowable however to mix and match the species, allowing you to create your own custom variety pack. <i>Example: 2 Columbine + 5 Bergamot + 1 Blanket Flower + 2 Penstemon = 10 plants</i>											\$
\$31 for 10 plants	QTY										
<u>XL Pots</u> (sold individually)											
\$12.50 each	QTY										\$
Perennial Flowers Total (transfer to Page 3 under Subtotals)											\$

Remember: Trees come to Granby on Wednesday, May 23rd, 2018 and to Frisco on Thursday, May 24th, 2018. Pickup location in Frisco is at the County Commons. Pickup location in Granby is at Miller Ranches on Hwy 34. **Though some accommodations can be made, we prefer that you pick up your order on the delivery date or make arrangements to have someone else pick them up on your behalf. This is especially important for Summit County.**

Grass Seed Descriptions

Dryland Pasture Mix– Used in areas where erosion control is needed. Good forage. Grows approximately 2 feet tall. Good competition for weeds. Drought-resistant. Contains smooth brome and pubescent wheatgrass.

Forest Mix–Designed for areas of beetle-kill tree removal. Good competition for weeds. Can grow waist high. Most diverse mix with some dry species and some wet species. Contains mountain brome, orchard grass, sheep fescue, pubescent wheatgrass, western wheatgrass, smooth brome, slender wheatgrass, timothy, Kentucky bluegrass, alsike clover, and red clover.

Irrigated Meadow Mix–for irrigated hay meadows. Needs irrigation. Contains meadow brome, orchard grass, timothy, alsike and mammoth red clover.

Dura-turf Lawn Mix—traditional lawn mix consisting turf-type tall fescue, perennial ryegrass, and Kentucky bluegrass. Needs regular watering.

Short Mix–Used for disturbed areas around buildings. Grows less than 1 foot tall. Does NOT look like a lawn. Drought-resistant. Contains streambank wheat grass, sheep fescue, and Kentucky bluegrass.

Wildflower Mix–contains 16 different species of wildflowers...see list below.

Buffalo Brand Mountain Wildflower Mix

<u>Common Name</u>	<u>Type</u>	<u>Color</u>
Columbine	Perennial	Blue
Dwarf Cornflower	Annual	Blue
Wallflower	B/P	Orange
Shasta Daisy	Perennial	White
California Poppy	Tender Perennial	Yellow-Orange
Perennial Gaillardia	Perennial	Yellow-Red
Baby's Breath	Annual	White
Blue Flax	Perennial	Blue
Black-Eyed Susan	A/B/P	Yellow
Catchfly	A/B	Pink
Godetia	Annual	Pink-White
Rocky Mtn. Penstemon	B/P	Purple
Showy Goldeneye	Perennial	Yellow
Polka Dot Cornflower Mix	Annual	Purple, Pink, White
Tussock Bellflower	Perennial	Lavender-Blue
Fleabane Daisy	Annual	White

Planting Rate/Acre: 6-12 lbs
Planting Rate/Acre Grass/Wildflower 1-5lbs

Seedling Survival Supplies

Water Holding Polymer

Our non-toxic, synthetic polymer looks like rock salt and can absorb up to 400 times its weight in water. When hydrated it looks like chopped Jell-O. Hydrated polymer is added to the fill dirt of each planting and the water is held available for the trees. The polymer will rehydrate with each rain fall or watering. The use of polymer allows longer intervals between watering (rain or irrigation) and reduces moisture stress if water is unavailable on a regular basis. We do not recommend that you rely solely on polymer to water trees. Supplemental moisture is still required.

We also offer the same polymer in a fine grain texture that becomes honey like: when mixed with water. The mixture clings to the roots of bare root trees which prevents root drying during planting and reduces transplant shock.

Tree Guards

Tree guards are an 18 inch tall, 4 inch diameter, plastic mesh tube that is placed over your trees and held in place with a bamboo stake. The guards are made of photo degradable plastic which will break down in about 3 years when the trees are established and have outgrown them.

Tree guards are effective in animal control. Small trees provide a succulent source of food to a variety of wild animals. Even domestic animals like to taste seedlings.

Tree Shades

Tree shades are an 8" x 12" plastic mesh screen that is slipped over and stapled around a metal wicket. The screen provides an 80% shade factor and photo degrades after 5 years. Place the tree shade next to your seedling on the south or southwest side; this will cast a shadow over your tree during the hottest time of day.

Colorado's high altitude magnifies solar intensity and allows more U-V radiation to reach the ground. In natural forest conditions shade is provided by surrounding mature trees and objects such as downed logs. The lack of shade is primarily a concern with conifer seedlings of certain species such as pines, spruces, firs, and Douglas-fir. Even species that require direct sunlight will fare better if partially shaded during establishment.
