What is the name of the road you live on?

Find your official address! [Grand County Parcel Viewer](#) [Summit County Parcel Viewer](#)

If you live in town, your road may have a common name like Grand Avenue or 4th Street. If you live outside of town, then you may have a County Road (CR) number in addition to a common name. Grand County Road 5 is the proper name/number, but it often goes by its common name, the “4 Bar 4 Road.” Google and other search engines are hit or miss on street names and numbers, so it is recommended you verify and memorize your **proper street name and/or number**. If you ever have to call 9-1-1, you will want to know the proper name or county road number because there can be many roads throughout the county with the same common name (such as Elk Drive or Chipmunk Lane). **County Road numbers are unique and not duplicated within the county.**

Is your address sign visible?

You may think your address sign is clear and obvious, but try driving around at night in a neighborhood where you are not familiar. Now, imagine that you are a first responder called out at 3 a.m. to help someone having a heart attack. **Quite simply, most address signs are NOT adequately visible.** Your house could be far off the road; there might be black numbers on a dark brown background; or the numbers might be too small. **Moreover, cute and decorative numbers on old tree stumps do NOT cut it.** For this reason, some neighborhoods have taken it upon themselves to add uniform metal signs at the beginning of their driveways with **GREEN BACKGROUNDS AND WHITE REFLECTIVE NUMBERS**. You can also individually purchase a sign for your property. *Grand County Wildfire Council* sells 9-1-1 reflective address signs; check out their website at www.bewildfireready.org. **You can also find their phone number on page 3.**

REMINDER: When you mount your address sign, make sure it is in a location that will **NOT** be obscured by snow or snowplowing operations during the winter.
